<b>Port of Long Beach</b> <b>Joint Command &amp; Control</b> <b>Center</b> <b>1249 Pier F Avenue</b> <b>Long Beach, CA 90802</b>	<b>El Dorado East Regional Park</b> <b>Golden Grove Picnic Area</b> <b>7550 E. Spring Street</b> <b>Long Beach, CA 90815</b>

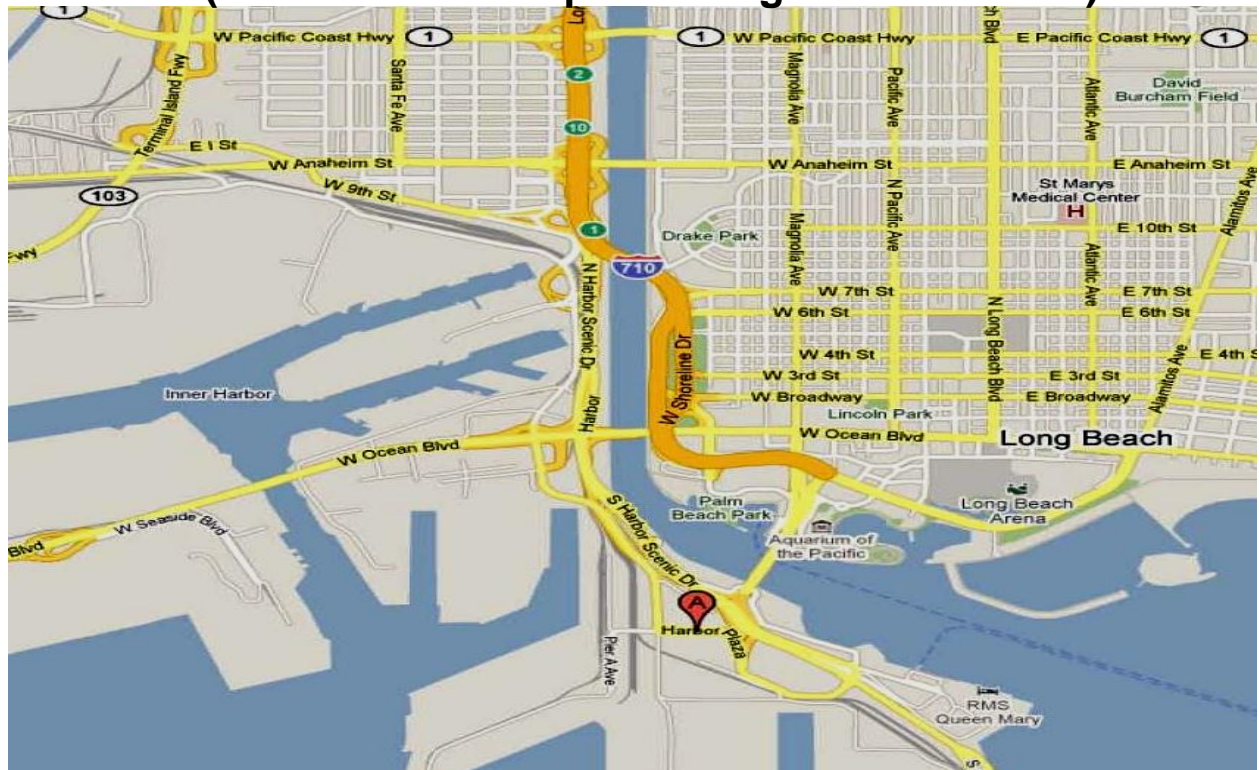

This three-day course is a basic overview of air pollution emphasizing visible emissions evaluation. Participants will be trained to perform EPA Method 9 for reading visible emissions and will have the opportunity to obtain visible emissions evaluation certification. This certification is valid for six months and must be renewed by attending [Course #100.1](#) (day certification) and [Course #100.2](#) (night certification). Additional topics include air pollution and its effects, meteorology, water vapor plumes, air pollution law, inspection procedures and diesel smoke enforcement.

Completion of Fundamental of Enforcement is required for anyone who seeks VEE certification or recertification from the California Air Resources Board. It is also a requirement for anyone who seeks to be listed under VEE with the California Air Resources Board Independent Contractor's Program. This is to ensure all CARB certified VEE readers meet our standards of certification and understand the California VEE laws.
